MEMORANDUM FOR: Inspector General *for*

SUBJECT : DD/P's 11 September Comments on IG's 29 June  
SR Division Survey

While of course adhering to our useful rule not to gild these lillies by extending the papers involved, let me make these points:

1. Para. 3 of DD/P's covering memorandum is an unfortunately too rare example of the inspected unit sensing the basic meaning of the whole report. Would that more surveys were similarly understood "in the round."

2. Para. 17 of the SR memorandum is an unfortunately too frequent example of the inspected unit quibbling over a recommendation without recourse to the associated argumentation, all of which answers each of the questions raised by the response; would that more surveys had less of this.
